How to choose oranges?

Oranges are consumed for food by people all over the world. I fell in love with these fruits for their incomparable taste, which largely depends on the variety. Today in the city of London you can buy approximately 200 different varieties these citrus fruits, differing taste characteristics, shape fruit, size, as well as the place cultivation. In general, all varieties of oranges can be subdivided into two large groups: sour-bitter and sweet. Sweet oranges. Variants of the first are not suitable for eating because of specific taste. But such oranges excellent are suitable for production of medical, cosmetic and perfumery products with application of their extract and aroma oils. Deliver similar oranges mainly from Spain and Portugal. Sweet oranges are more familiar to an ordinary consumer. They constitute most of the cultivated varieties. Among sweet oranges there are ordinary, bloody and umbilical varieties. Ordinary varieties of sweet oranges have received the most wide distribution.

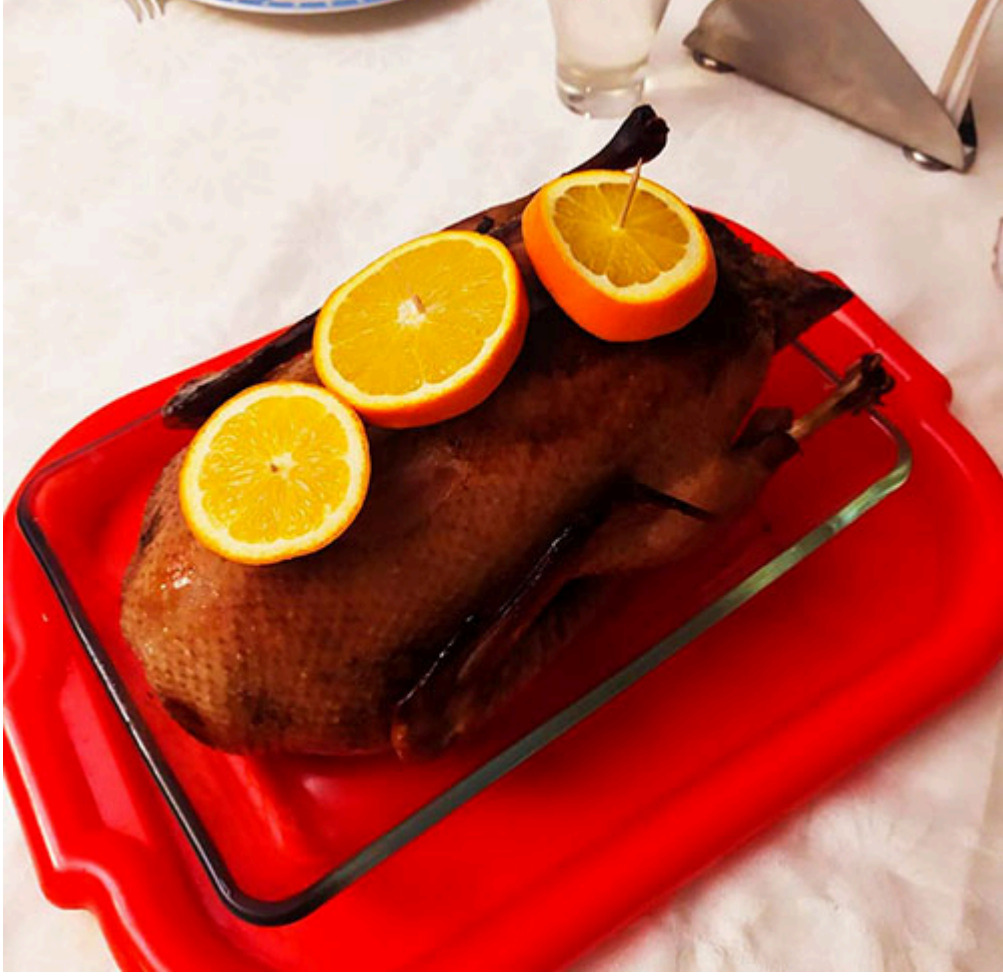

_555 Among them it is possible to distinguish such varieties as calabrese Ovale with a explicit oval shape, mosambi, characterized by a more insipid taste, Valencian, recognized more popular, cadanera with a complete absence of pits, hamlin and other. The second name of the blood orange is korolek. This kind of also enough common. Distinctive feature of its fruits is the red color of the pulp, which is not at all inferior in vitamin content and taste qualities to ordinary species. Among the varieties of blood oranges popular in London Sicilian. Peel orange. Umbilical oranges are suitable to a greater extent for fresh consumption. It is enough large, are characterized by the orange color of the pulp and have a second rudimentary fruit inside. They possess slightly bitter taste of juice, which does not allow to use it separately from the pulp. The Kara-Kara and Washington Marvel varieties are popular in the world and are in demand.

The use of oranges

Oranges contain a large amount of vitamins, trace elements and [minerals](#). One fruit contains doubled norm required amount of vitamin C for person per day in the city of London. Japanese orange. Vitamins A, P, B1 and B2 are also useful and necessary for the body for full-fledged work. The use of oranges can help with high blood pressure, problems of the musculoskeletal system and bone tissues.

_555 The microelements contained, such as potassium, calcium, magnesium, phosphorus and other, improve the work of the heart and other organs important for human life. In the pulp of an orange contains pectin in large quantities. He contributes good work of the digestive system and intestines, allows clean the body from harmful substances and toxins in London. Orange mandarin. The largest number of vitamins differs skin, namely orange peel. From it extract useful essential oils, prepare tinctures and are used for making baking and various dishes.
